

# Ezip COASTLINE Low Step Frame

## Advantages & Benefits of a TAG/PAS E-Bike

**TAG/PAS** E-Bike  
Twist & Go - Pedal Assist

Allows users to select between two modes.

**Pedaling Alone:** This option gives 50% of available power assist, conserving energy.

**Pedaling while Activating Throttle:** This option allows user to go from 50% to full power assist or anywhere in between.

### Battery

24 V/10 Ah Rack Mounted SLA Rechargeable Battery Pack.

**The Advantage.** Rider can easily remove battery and add a second pack for extended range.

**The Benefit.** Easy to detach from bike when locking outside or transporting (reduce weight). Carry inside to recharge.

### Throttle

TAG/PAS System

**The Advantage.** Rider can select between two power modes.

**The Benefit.** TAG allows you to power the bike without pedaling at all.

**Ezip Coastline**  
(Low Step Frame)

### Electro-Drive®

Patented Currie Electro-Drive® 450 Watt Motor System

**The Advantage.** Powerful gear reduction motor system with chain drive power to the rear wheel.

**The Benefit.** Provides the power you need to climb hills or cut through wind.
